Karen Putnam presents camps, classes, parties and special events to inspire the "ART from the HEART" through art, drama, dance, music, photography, body or face-painting and more! Sharing is encouraged through puppet play, games and story-telling. Each class or party is different, as each person is different and will influence the flow of our creative time together. Activities and materials are personalized. **Parents and care givers may participate with younger children, or have option to drop-off older children.**
